**Political and Governance Reforms in India**

*Roadmap for a New Democracy*

11 November, 2005

Mumbai

The purpose of a government is to make it easy for  
people to do good and difficult to do evil

- *Gladstone*

# Crisis of Governance

- Increasing lawlessness
- Inefficient state apparatus
- Unresponsive bureaucracy
- Ineffective judicial system
- All pervasive corruption
- Criminalization of politics
- Money and muscle power in elections
- Political instability
- Erosion of legitimacy of authority

# Distortions of State Power

- Positive Power restricted  
Negative power unchecked
- All organs are dysfunctional
- A system of alibis  
Victims of vicious cycle
- Change of players  
No change in the rules of the game
- Political process ought to be the solution  
But has become the problem itself

# Governance at a Glance

- Governments spend Rs. 1800 crores every day
- Out of 27 million organised workers, government employs 70%
- Fiscal deficit (Union and States) remains at 10 % GDP
- 50% Union tax revenues go towards interest payments

# Is Money the issue?

## Sanitation

- 140 million toilets needed
- Cost: Rs 35,000 crores
- Equals just 20 days expenditure

## School Education

- 1.6 million class rooms needed
- Capital cost : Rs 16,000 crores – 9 days govt. expenditure
- Recurring expenditure : Rs.8000 crores – 5 days govt. expenditure

# In a Sane Democracy

- Political process should resolve the crisis
- Parties, elections and public office are the route to reform
- In India a vicious cycle operates

# System Caught in a Vicious Cycle

- Inexhaustible demand for illegitimate funds
- Most expenditure incurred for vote buying
- Rise of political fiefdoms
- Vote de-linked from public good
- Taxes de-linked from services
- Political survival and honesty incompatible
- Social divisions exacerbated
- Competence and integrity excluded
- National parties marginalized

# Most Expenditure is to Buy Votes

Voter seeks money & liquor

More expenditure

Large spending may or may not lead to success, but failure to spend almost certainly leads to defeat

Greater corruption

Greater cynicism

Voter seeks more money

Contd..

# Rise of Political Fiefdoms

Need for money, caste and local clout

Parties are helpless in choice of candidates

Rise of political fiefdoms

Absence of internal party democracy

Competition among a few families in most constituencies

Oligopoly at constituency level

# Political Survival and Honesty Not Compatible

Parliamentary executive

Government survival depends on legislative majority

Legislators spend a lot of money to get elected

They need multiple returns to sustain the system

Corruption and misgovernance endemic

Government has to yield to legislators' demands

Corruption is perpetuated even if government has the will

Honesty not compatible with survival

Contd..

## Social Divisions Exacerbated

FPTP

↓  
Scattered minorities unrepresented

↓  
Marginalization and Ghettoization

↓  
Strategic voting and vote-bank politics

↓  
Obscurantists become interlocutors drowning voices of reason and modernity

↓  
Politicians pander fundamentalists

↓  
Counter-mobilization of other groups based on primordial loyalties

↓  
Communal polarization and strife

Contd..

## Oligopoly of Parties

FPTP

Only a high threshold of voting ensures victory

Parties with 35 - 50% vote, or social groups with local dominance get elected

Significant but scattered support pays no electoral dividends

Voters prefer other “winnable” parties

Marginalization of reformers, and national parties

Regionalization of polity & perpetuation of status quo

# Campaign Expenditure – Vicious Cycle

- Illegitimate expenses are often 5-10 times the ceiling or more

(Assembly ceiling: Rs 10 lakhs

Lok Sabha ceiling: Rs 25 lakhs)

- Every crore spent illegitimately

Rs 10 crore returns

(to cover ROR, Interest, personal upkeep, supporters, family's future, next election costs)

Rs 100 crore collected through bureaucracy

(for every legislator, there are 2000 employees who need to collect 'rent')

People suffer ten times more.

(Payment extorted, on pain of delay, harassment, humiliation, anxiety and greater loss)

Contd..

## Political vs. Economic Reforms

### Economic Reforms:

Political consensus available

Process irreversible

Continuity of policy

Stridency not to be confused with substance

Young Indians (71% below 34 yrs of age) in favour of markets

Rule of Law and sanctity of contracts - record is mixed

Political games do cause delays (eg. disinvestment)
