Electoral Reforms

17th July, 2002, ASCI, Hyderabad

Macro Perspective of Indian Polity

- Disaggregate volatility
- Broadly reflective of public opinion
- Ruling parties and powerful candidates do lose
- Rejection/Negative vote pretty common

Micro Perspective of Indian Polity

- Money power dominant
- Criminalization rampant
- Voting irregularities frequent
- People take money to vote
- Caste and divisive impulses are prominent

How is Democracy Surviving?

- A system of compensatory errors (competing distortions neutralize each other)
- Strength of Election Commission
- Tradition of Neutrality of Officials
- Pre-Polling process scrupulously fair (nominations, ballot papers, appointment of polling officials etc.)
- Post-polling process completely non-partisan (transport, storage and counting of ballots and declaration of results)

What is Wrong with Elections?

- Polling Irregularities
- Autocratic Political Parties
- Money Power
- Criminalization

Polling Irregularities

Serious flaws in voter rolls

Sample survey 40% errors in urban areas

State-wide survey 15% errors in villages

 \blacktriangleright > 40% errors in towns

21.7% possible fraudulent voting in cities

Simple solutions

Voter Registration

Post Office as Nodal Agency Voter Lists on Display Voter Lists for Purchase Statutory forms Receipt of Application Acknowledgement Action taken intimation

Polling Fraud

Voter identity card Repoll if tendered votes exceed 1% Wide publicity to utilise tendered vote

Criminalization

- Section 8 of RP Act not adequate
- Charges framed by magistrate
- Civil Society Pressure
- Transparency
- Media Exposure
- Disclosure of Prosecution, Charges, History Sheet, Rowdy Sheet etc.

Political Parties - Why Regulation?

Political Parties • Monopoly or oligopoly • Represent history, memories, aspirations of millions • Seek power over all people • Cannot be easily formed or built • People and members have no realistic alternatives • Vehicles for political

• participation of citizens

Societies

- Free choice
- Mere organisations of convenience
- Pursue members' collective goals
- Can be formed and dissolved at will
- Members have multiple options
- Vehicles for voluntary pursuit of
- individual / group goals

Political Parties – What Regulation?

Membership

- Free, open and voluntary
- Uniform, objective conditions / no restrictions
- No arbitrary expulsion
- Due process for disciplinary action

Leadership choice

- By regular, periodic, free and secret ballot
- Opportunity to challenge leadership through formal procedures with no risk of being penalised

Choice of Candidates

- By members at constituency level through secret ballot
- By elected delegates through secret ballot
- Central leadership cannot nominate candidates

Problems with Current Campaign Funding Laws

- Explanation 1 of Section 77 of R.P. Act, 1951
- No Public Auditing
- Weak Enforcement (Non- Existent)
- No Disclosure Norms
- No Penalties
- No Asset and Income Disclosures
- No incentive for Public Funding

Campaign Expenditure – India and US Comparison

Expenditure for Lok Sabha + all Assemblies – all parties + candidates

Estimated : Rs.2500 + Rs.4500 crores Total : Rs.7000 crores = \$1.5 b 70-80% is for vote buying

US election expenditure in 2000 Presidency + House + 1/3 Senate + 1/3 governors

Estimated expenditure: (Soft + issue ads Hard) \$3 billion 80% is for TV advertising. Actual campaign expenditure : 50%

\$1.5 billion

Adjusted to our low per-capita income, and high purchasing capacity of Rupee, our expenditure is 60 times that of US!

Campaign Expenses – Vicious Cycle

- Illegitimate expenses are often 5-10 times the ceiling or more
 - (Assembly ceiling: Rs 6 lakhs
 - Lok Sabha ceiling: Rs 15 lakhs)
- Every crore spent illegitimately

Rs 10 crore returns

(to cover ROR, Interest, personal upkeep, supporters, family's future, next election costs)

 \checkmark

Rs 100 crore collected through bureaucracy

(for every legislator, there are 2000 employees who need to collect 'rent') \downarrow

people suffer ten times more.

Payment extorted, on pain of delay, harassment, humiliation, anxiety and greater loss.

Political Funding

- Tax credits for funding
- Full and truthful disclosure by donor and party
- Severe penalties for violations
- Compulsory statutory auditing
- Election Commission final authority for determination of compliance
- Public funding indirect free air time
- Direct public funding non-discretionary and verifiable norms

Political Funding

- Candidates income and assets disclosure
- Severe penalties for non-disclosure or false disclosure
 - Fine ten times the amount
 - Disqualification for 6 years
 - Donor's imprisonment for 6 months
 - Candidate's imprisonment for one year
 - Party's de-recognition
 - Office bearer's imprisonment for 3 years
- Reasonable ceilings
- Repeal of explanation under Section 77
- EC to be final authority on compliance and penalties
- Imprisonment by special tribunals

Electoral Funding – Possible Reforms

Public funding

public channels private channels

- more flexible use of time
- televised debates

Direct – only after other reforms are in place

- non-discretionary and verifiable

A model:

- funding for all candidates
- a threshold of 10% votes in the constituency
- Rs 5 or 10 per vote polled
- parties to get 50% advance based on last election

Will Vote Buying Disappear?

- Not immediately
- People will continue to take money for voting
- Candidates will spend personal money for sometime
- Severe penalties will force disclosures
- Local government empowerment will reduce vote buying

vote _____ public good tax money _____ services authority _____ accountability

value of vote will then be far greater than the money offered

Other Critical Reforms for Reducing Unaccounted Expenditure

- Proportional representation (German model mixing with constituency election)
 - Incentive to buy votes in a constituency will disappear
 - Interests of local candidate will run counter to party's need to maximise overall vote
 - Will give representation to small parties and legitimate reform groups, forcing change
 - Voting will be based on party image and agenda, not local expenditure
 - Ignored sections will find voice and get representation

contd..

Other Critical Reforms for Reducing Unaccounted Expenditure

- Direct election of head of government at State and local levels
 - No one can buy a whole state electorate
 - Image and agenda of leader will be decisive
 - With separation of powers, there will be no incentive to overspend for legislative office
 - At state level, there is no fear of authoritarianism as Union government, Election Commission, Supreme Court etc., will act as checks
