LOK SATTA

People Power

Presentation made to CEOs of IT Industry

Hyderabad, 10th April, 2003
The purpose of a government is to make it easy for people to do good and difficult to do evil.

Sir Gladstone
State and Liberty

- Defend Freedom
  - Laws to regulate conduct
  - Laws to protect liberty (child labor etc.)
  - Laws and systems to protect property rights
- Common Services
- Facilitate enjoyment of freedom
  - Public order and peace
  - Education
  - Health care
  - Elimination of drudgery
  - Conditions for economic growth
State vs Citizen

- Strong State → authoritarianism
- Weak State → anarchy
- Citizen-centered enabling state

- Individual & Family
- Community of Stakeholders
- Local government
- State government
- Federal government
Can Economic Reforms Alone Deliver?

- Smaller and more focused government will help
- But government still has large role
What the Reform Process has not Attempted so far

- Freeing ordinary citizens from shackles of government bureaucracy
- Strengthening agriculture
- Reducing corruption
- Promoting transparency
- Enhancing accountability
- Enforcing rule of law
- Building adequate infrastructure
- Improving public services
Persistent Regulatory Shackles

- The long arm of state hurting economic activity and livelihoods
  eg: rickshaw pullers, hawkers etc.
- Extortionary corruption debilitating industry
  - Customs
  - Central excise
  - Commercial taxes etc
- Absence of reforms to generate demand for labour
Unintended Consequences of Early Phase of Reforms

- One time grand corruption – golden goose effect
- Abdication of state in critical areas
- Corruption shifting to sovereign areas
- Continuing regional disparities
Way Out

- Genuine democratic reforms
- Reinventing the state
- Effective state – not weak state
- Genuine liberal democratic paradigm in public discourse
- High quality scholarship in non-marxist framework
- Special package for low-growth regions
Bottlenecks for Sustained High Growth

Weak role of state

- Rule of law
- Public order
- Justice
- Education
- Health care
- Infrastructure
- Natural resources development
Governance at a Glance

- Governments spend Rs. 1800 crores every day
- Out of 27 million organised workers, government employs 70%
- Fiscal deficit (Union and States) remains at 10% GDP
- 50% Union tax revenues go towards interest payment
Is Money the Issue?

**School Education**

- 1.6 million classrooms needed
- Capital cost: Rs.16,000 crores – 9 days govt. expenditure
- Recurring expenditure: Rs.8000 crores – 5 days govt. expenditure

**Sanitation**

- 140 million toilets needed
- Cost: Rs 35000 crores
- Equals just 20 days expenditure
In a Sane Democracy

- Political process should resolve the crisis
- Parties, elections and public office are the route to reform
- In India a vicious cycle operates
Failure of Political Process

- Parties
  - Autocratic and unaccountable
  - Repel the best
  - A problem, not solution
  - Choice - Tweedledom & Tweedledee

Contd..
Failure of Political Process

- Elections
  - Change of players
  - No change of rules of game
  - Criminalization
  - Money power
  - Flawed process
    - Electoral rolls (40% errors)
    - Bogus voting (22%)
Distortions of State Power

- Positive Power restricted
  Negative power unchecked
- All organs are dysfunctional
- A system of alibis
  Victims of vicious cycle
- Change of players
- No change in the rules of the game
- Political process ought to be the solution
  But has become the problem itself

Why Focus on Politics

- Whatever be the issue, political failure is the starting point
- Every election is a promise of peaceful transformation
- Politician is not the villain – but the responsibility rests with the politician
- If political process cannot deliver on the promise of change, violence and anarchy are the end results
- Freedom and order are the necessary conditions for economic growth and prosperity
Macro Perspective of Indian Polity

- Disaggregate volatility
- Broadly reflective of public opinion
- Ruling parties and powerful candidates do lose
- Rejection/Negative vote pretty common
Micro Perspective of Indian Polity

- Money power dominant
- Criminalization rampant
- Voting irregularities frequent
- People take money to vote
- Caste and divisive impulses are prominent
How is Democracy Surviving?

- A system of compensatory errors (competing distortions neutralize each other)
- Strength of Election Commission
- Tradition of Neutrality of Officials
- Pre-polling process scrupulously fair (nominations, ballot papers, appointment of polling officials etc.)
- Post-polling process - completely non-partisan (transport, storage and counting of ballots and declaration of results)
Campaign Expenditure – India vs US

Expenditure for Lok Sabha + all Assemblies – all parties + candidates

Estimated: Rs.2500 + Rs.4500 crores
Total: Rs.7000 crores = $1.5 b
70-80% is for vote buying

US election expenditure in 2000
Presidency + House + 1/3 Senate + 1/3 governors

Estimated expenditure: (Soft + issue ads Hard) $ 3 billion
80% is for TV advertising.
Actual campaign expenditure: 50%

$ 1.5 billion

Adjusted to our low per-capita income, and high purchasing capacity of Rupee, our expenditure is 60 times that of US!
Campaign Expenses – Vicious Cycle

- Illegitimate expenses are often 5-10 times the ceiling or more
  (Assembly ceiling: Rs 6 lakhs
  Lok Sabha ceiling: Rs 15 lakhs)

- Every crore spent illegitimately
  ↓
  Rs 10 crore returns
  (to cover ROR, Interest, personal upkeep, supporters, family’s future, next election costs)
  ↓
  Rs 100 crore collected through bureaucracy
  (for every legislator, there are 2000 employees who need to collect ‘rent’)
  ↓
  people suffer ten times more.
  Payment extorted, on pain of delay, harassment, humiliation, anxiety and greater loss.
Will Vote Buying Disappear?

- Not immediately
- People will continue to take money for voting
- Candidates will spend personal money for sometime
- Severe penalties will force disclosures
- Local government empowerment will reduce vote buying

- value of vote will then be far greater than the money offered

vote ⇐ public good

tax money ⇐ services

authority ⇐ accountability
Other Critical Reforms for Reducing Unaccounted Expenditure

• Proportional representation (German model mixing with constituency election)
  o Incentive to buy votes in a constituency will disappear
  o Interests of local candidate will run counter to party’s need to maximise overall vote
  o Will give representation to small parties and legitimate reform groups, forcing change
  o Voting will be based on party image and agenda, not local expenditure
  o Ignored sections will find voice and get representation contd..
Other Critical Reforms for Reducing Unaccounted Expenditure

- Direct election of head of government at State and local levels
  - No one can buy a whole state electorate
  - Image and agenda of leader will be decisive
  - With separation of powers, there will be no incentive to overspend for legislative office
  - At state level, there is no fear of authoritarianism as Union government, Election Commission, Supreme Court etc., will act as checks
Can Civil Society Accomplish Changes?

- Best practices in India and elsewhere offer us solutions
- Collective, informed assertion is the only means
- Inchoate discontent needs to be channelized into concerted action
- Focus on specific, practical, achievable reforms will yield results
